Underage Drinking Prevention Programs Operated or Funded by the State

Project Northland

Program serves specific or general population	Specific population
Number of youth served	547
Number of parents served	No data
Number of caregivers served	No data
Program has been evaluated	Yes
Evaluation report is available	Yes
URL for evaluation report:	http://www.nrepp.samhsa.gov
URL for more program information:	http://www.nrepp.samhsa.gov

Program Description: Project Northland is a multilevel intervention involving students, peers, parents, and community in programs designed to delay the age at which adolescents begin drinking, reduce alcohol use among those already drinking, and limit the number of alcohol-related problems among young drinkers. Administered weekly to adolescents in grades 6–8, the program has a specific theme within each grade level that is incorporated into the parent, peer, and community components. The 6th-grade home-based program targets communication about adolescent alcohol use utilizing student-parent homework assignments, in-class group discussions, and a communitywide task force. The 7th-grade peer- and teacher-led curriculum focuses on resistance skills and normative expectations regarding teen alcohol use, and is implemented through discussions, games, problem-solving tasks, and role-plays. During the first half of the 8th-grade Powerlines peer-led program, students learn about community dynamics related to alcohol use prevention through small-group and classroom interactive activities. During the second half, they work on community-based projects and hold a mock town meeting to make community policy recommendations to prevent teen alcohol use.

Life Skills Training (LST)

Program serves specific or general population	Specific population
Number of youth served	57,968
Number of parents served	No data

Program has been evaluated Yes

Evaluation report is available Yes

URL for evaluation report: <http://www.nrepp.samhsa.gov>

URL for more program information: <http://www.nrepp.samhsa.gov>

Program Description: TGF is a school-based prevention program for kindergarten through 12th grade that builds on students' resiliency by teaching them how to be socially competent and autonomous problem solvers.

Project SUCCESS

Program serves specific or general population Specific population

Number of youth served 9,413

Number of parents served No data

Number of caregivers served No data

Program has been evaluated Yes

Evaluation report is available Yes

URL for evaluation report: <http://www.nrepp.samhsa.gov>

URL for more program information: <http://www.nrepp.samhsa.gov>

Program Description: Project SUCCESS (Schools Using Coordinated Community Efforts to Strengthen Students) is designed to prevent and reduce substance use among students ages 12–18. The program was originally developed for students attending alternative high schools who are at high risk for substance use and abuse due to poor academic performance, truancy, discipline problems, negative attitudes toward school, and parental substance abuse.

Project ALERT

Program serves specific or general population Specific population

Number of youth served 6,780

Number of parents served No data

Number of caregivers served No data

Program has been evaluated Yes

Evaluation report is available Yes

URL for evaluation report: <http://www.nrepp.samhsa.gov>

URL for more program information: <http://www.nrepp.samhsa.gov>

Program Description: Project ALERT is a school-based prevention program for middle or junior high school students that focuses on alcohol, tobacco, and marijuana use. It seeks to prevent adolescent nonusers from experimenting with these drugs, and to prevent youths who are already experimenting from becoming more regular users or abusers.

Project Towards No Drug Abuse (TND)

Program serves specific or general population Specific population

Number of youth served 5,517

Number of parents served No data

Number of caregivers served No data

Program has been evaluated Yes

Evaluation report is available Yes

URL for evaluation report: <http://www.nrepp.samhsa.gov>

URL for more program information: <http://www.nrepp.samhsa.gov>

Program Description: Project TND is a drug use prevention program for high school youth. The current version of the curriculum is designed to help students develop self-control and communication skills, acquire resources that help them resist drug use, improve decisionmaking strategies, and develop the motivation to not use drugs

Additional Information Related to Underage Drinking Prevention Programs

State collaborates with federally recognized tribal governments in the prevention of underage drinking Yes
 Description of collaboration: St Regis Mohawk Tribe and Health Services provides prevention services on and off the reservation. The provider delivers Too Good for Drugs and performs social marketing and coalition development. Alternatives Counseling Services Inc. provides services to the Shinnecock Indian Nation in the town of Southampton in Suffolk County. This provider delivers Too Good For Drugs, Too Good For Violence, and Project Venture.

State has programs to measure and/or reduce youth exposure to alcohol advertising and marketing Yes
 Description of program: The Youth Development Survey was conducted in fall 2014 with questions related to youth exposure. Many New York State Office of Alcoholism and Substance Abuse Services (OASAS)-funded providers and coalitions have been performing annual surveys that also measure youth exposure. The OASAS 2014 YDS is currently in review and will be posted on the OASAS website when approved by the Commissioner.

State has adopted or developed best practice standards for underage drinking prevention programs Yes

Agencies/organizations that established best practices standards:

Federal agency(ies): No

Agency(ies) within your state: OASAS Yes

Nongovernmental agency(ies): No

Other: No

Best practice standards description: Prevention Guidelines: The purpose of the 2014 Prevention Guidelines is to define and describe acceptable levels of prevention services, strategies and activities necessary to reduce underage drinking, alcohol misuse and abuse, illegal drug abuse, medication misuse and problem gambling within the framework prescribed by OASAS.

Environmental substance abuse prevention strategies were designed to impact the community, social and economic contexts in which people access and consume alcohol, tobacco or other drugs. These strategies are grounded in the field of public health and emphasize changing the broader physical, social, cultural, and institutional forces that contribute to health problems in the general population. In New York, environmental strategies primarily target underage drinking and research supports the effectiveness of this approach with preventing/reducing underage alcohol consumption. The most effective environmental strategies employ a three-pronged approach: (1) enacting or improving laws, regulations, and policies, (2) enhancing enforcement of laws, regulations, or policy, and (3) use of the media to raise community awareness and support for the policy and enforcement activities.

Community mobilization and media support are essential both to generate community support for the environmental changes and to promote their sustainability. These relatively new and effective EBP prevention strategies, like all effective prevention, must be based on a community needs assessment for the specific environmental factors that lead to substance related negative consequences. To be successful, multiple and reinforcing strategies must be planned carefully.

Underage Drinking Reports

State has prepared a plan for preventing underage drinking in the last 3 years Yes

Prepared by: Advisory Council on Underage Alcohol Consumption and Youth Substance Abuse.

OASAS is required by Mental Hygiene Law to produce a Statewide Comprehensive Plan every October 1 and an Interim Report on the Plan on February 15. Developed in accordance with Section 5.07 of Mental Hygiene Law, the Statewide Comprehensive Plan 2011-2015 informs counties, providers, people in recovery, their families, other state agencies, the federal government, and other interested parties about major priorities and future directions. Although planning documents are produced and released on regular cycles, as set by Mental Hygiene Law, OASAS views planning as a year-round process that informs policy development, budgeting, and the development and delivery of services at the state, local, and provider levels. Our collaborative planning efforts with counties, providers, state, and federal agencies will guide future efforts and have the flexibility to respond to changing conditions. OASAS seeks feedback on the use and usefulness of the Statewide Comprehensive Plan. To access the Plan, go to <http://www.oasas.ny.gov/pio/commissioner/documents/5YPlan2011-2015.pdf>.
